

Join the hundreds of manufacturers that have already taken advantage of training off-set by state-funding

MAKING BUSINESS MORE PROFITABLE WITH CUSTOMIZED WORKFORCE TRAINING SOLUTIONS

Today, manufacturing in California is feeling the pressure of business being taken out of the state, and in some cases, outsourced overseas. California is faced with a shortage of skilled workers and the high cost of finding and keeping qualified employees. How do you get the most value out of the investment you've made in your people? TRAINING is the answer.

California Manufacturing Technology Consulting (CMTC), in partnership with the California Employment Training Panel (ETP), can off-set the cost of bringing high quality, customized, on-site training to manufacturing companies. CMTC helps manufacturers achieve increased performance and ROI through implementation support and workforce training. Help your people and business perform better. Let us make a POSITIVE IMPACT together.

Listed below is a partial list of the training programs available. There are many others available. Contact us for more information.

- Supply Chain Management
- Problem Solving
- Production & Inventory Management

COMPUTER SKILLS

- Office Automation
- Enterprise Resource Planning
- Microsoft® Office Suite
- Advanced Technical Courses for Certification

WHO IS ELIGIBLE FOR THE STATE-FUNDED TRAINING?

- Train supervisors, technical/engineering staff, administrative and frontline production workers.

The employees that can be trained need to be:

- Full-time employees working 35 hours or more per week.
- Earning the ETP minimum wage standard which varies by county and can include employer-paid health care benefits.

WHO DELIVERS THE TRAINING, WHEN IS IT DONE AND WHERE IS IT CONDUCTED?

- Training is delivered by a select group of highly qualified instructors with manufacturing industry experience. The training is customized to provide training that meets your business needs.
- All training is provided at your work site for groups of up to 20 students. Training schedules are flexible to accommodate your work schedule. Classroom training is complemented by practical, hands-on training done on the job.

ELIGIBILITY & GETTING STARTED

- California employers that pay into the California Unemployment Insurance Fund.
- Call CMTC for a no cost review of your company's training requirements and qualifications for funding.
- Complete the Certification Statement (ETP Eligibility form) available on our website at: www.cmtc.com/determiningEligibility.html.
- Select the employees and approve the curriculum developed by the trainer.
- Finalize the training schedule and secure your commitment to start.

Call today and learn how your company can supplement the cost of customized on-site training with state-funding!

CMTC provides consulting services in the practices of Strategic Business, Lean Enterprise, Information Technology, Quality Management, Supply Chain Management, Small Manufacturers Advantage and specialized training with Cerritos College.

CMTC is a private, non-profit corporation, funded from client fees and government assistance programs. State and federal efforts are supported through the cooperative agreements of the National Institute of Standards and Technology's (NIST) Manufacturing Extension Partnership (MEP) and California's Business, Transportation & Housing Agency's Manufacturing Technology Program (MTP). Cerritos College's Center for Applied Competitive Technologies is also a valued partner.
