

CMTC Consultants

Expertise for California Manufacturers

GROWTH STRATEGIES

Mike Madden | Cost Reduction

Manufacturing Expertise - Manufacturing, Marketing, Information Technology and Enterprise Solution Architecture

Specialization - Assisted Companies in Automotive, Aerospace, and Industrial Manufacturing to Capitalize on Market Opportunities, Develop Strategic Solutions, Optimize Resource Utilization, and Rationalize Operations

Education - MBA - University of California at Berkeley and BS, Marine Engineering - California Maritime Academy

Jonathan Garcia | Automotive

Business Expertise - A former Toyota Motor Sales, USA, Inc. employee along with other experiences with automotive manufacturer suppliers. Worked in many industries allowing him to understand various manufacturing businesses and markets.

Specialization - Developing unique strategic approaches for business development.

Education - BA in Economics, California State University of Los Angeles

Ron Calame | Food Manufacturing and Processing

Manufacturing Expertise - Background and extensive experience in Supply Chain Management in industrial and consumer products business operations including Food, Medical Products, Consumer Electronics, Building Materials, Chemical Products.

Specialization - Strategic Business Planning and Execution, Productivity and Workplace Improvement, Project Management, ERP/MRP Systems and other Productivity Improvements.

Professional Credentials - Certified Growth Coach, American Production Inventory Control Society (APICS) CPIM Certified, Six Sigma Green Belt Trained. Lean Enterprise Trained.

Education - BS, Business Administration, Northern Illinois University, Supply Chain Management Systems, Cal State Fullerton.

Kris Widdison | Aerospace and Defense

Manufacturing Expertise - Manufacturing – aerospace and computer systems, MRO Organizations, Wholesale Distribution, Retailing, Mail Order Processing, Book Publishing, Construction Management, Transportation (aviation management), Long-Term /Convalescent Health Care Management, Navigation Systems, Computer Networking

Specialization - Strategic Business Planning and Execution, Productivity & Workplace Improvement, Project Management, ERP/MRP and other Productivity Software; Network Administrator

Professional Credentials - Six Sigma Black Belt, Certified Growth Coach, Certified Unix Network Administrator Certified Master Trainer (“Train the Trainer”), Certified Mergers and Acquisitions Planner, Commercial Pilot, Certified Flight Instructor (CFI), Certified Ground Instructor (CGI) – FAA

Education - BS, Physics & Mathematics – Weber State University; MS, Astrophysics – University of New Mexico; PhD Study (DND), Information Systems – Air Force Management Institute

LEAN

Jim Gilbert | Set-Up Reductions

Manufacturing Expertise - Foundry/Machine Shop/Metal Processing, Manufacturing: Equipment, Aerospace, Pump, Paint, Military Contracts Electronics Assembly, and Wire Coating, Aircraft Maintenance & Refurbishing, Distributors

Specialization - Lean Manufacturing and Accounting, Organizational Development, Change Management, Activity Based, Management, Leadership, Activity Based Change, Cellular Manufacturing, Continual Improvement, Pull Systems

Professional Credentials - Certified Management Consultant, Six Sigma Green and Black Belts, Certified Visual Lean Trainer, Certified MODAPTS Analyst, Certified Achieving Manufacturing Excellence Consultant, Trained by Toyota on the Toyota Production System

Education - BS - Business Administration – UM at St. Louis, MBA Certificate, Freeman School of Business, Tulane University

Saeed Madjidi | Lean Management

Manufacturing Expertise - Aerospace, Semiconductor, contract packaging, wood, metal finishing

Specialization - Process re-engineering, Molding, Lean Manufacturing, Plant layout and, Modernization, Process improvement, Equipment selection

Professional Credentials - Received certification in SPC, Toyota Production System. Six Sigma Green Belt certified

Education - B.S.I.E - University of Washington, MBA - University of Phoenix

QUALITY

Kim Victorine | Quality

Manufacturing Expertise - Aerospace/Military/Commercial Electro-mechanical, Corrugated and Injection Molded Products (CD/DVD), Electroplated/Electroformed Products, Assembly and Packaging (Automated & Manual), Offset & Silk-screen Printing, Sailmaking

Specialization - Organizational & Process Improvements, Lean Manufacturing, Quality Management Systems, Problem Solving, Corrective Action, Group Facilitation & Training

Professional Credentials - RAB/QSA Certified Quality Management System Lead Auditor #Q07355, Auditor/Lead Auditor of Quality Systems, Certificate #36019710, Zenger Miller Facilitator Certification, Achieve Global Facilitator Certification, Value Stream Mapping & Lean Manufacturing, 5S and Setup Reduction Facilitator, Total Quality Management, Just In Time Manufacturing, Statistical Process Control & Quality Circle Facilitator, Clean Room Operations

Education - BS Business Administration - California State University, Sacramento

Geoffrey Downer | Quality

Manufacturing Expertise - Mechanical Engineering, Aerospace, Automotive, Electromechanical, Materials Testing, Chemicals, Injection Molding Plastics & Rubber, Paper & Printing, Metrology, Service Organizations

Specialization - Implementation of the ISO 9001 based standards. Advanced Quality Planning, Design & Process FMEAs, TQM, Vendor Audits & Selection, Metrology, Materials Testing, Quality Costs, Problem Solving

Professional Credentials - Member of the Chartered Quality Institute
RAB Quality Systems Lead Auditor, ISO/TS 16949 Supplier Auditor

Education - BS – Mechanical Engineering, University of Southampton, England

PROJECT & CHANGE MANAGEMENT

Steve Buchwald | Process and People Management Techniques

Manufacturing Expertise - Food products, Furniture, Cosmetics, Sports equipment, Steel fabrication, Automotive, Aerospace & Defense, Audio & video replication, and Mining

Specialization - Project management, Process re-engineering, Lean manufacturing, Activity based management, Executive coaching, Production and Inventory Control, Supply Chain Management

Professional Credentials - PMI certified as a Project Management Professional (PMP), APICS certified in Integrated Resource Management (CIRM), APICS certified as a Supply Chain professional (CSCP)

Education - BS – University of Cincinnati, MA – Xavier University

ENERGY

Kirk Prather | Energy Efficiency

Manufacturing Expertise - Management Consultant in Manufacturing Operations, Factory Manager of Advanced Manufacturing Engineering, Materials Manager and Operations Manager

Specialization - Energy Measurements, Energy Savings Estimates and Calculations in the Two SCE VeSM Contracts from 2004 to 2009

Professional Credentials - Author of ACEEE 2007 Summer Study Paper Entitled “Case Studies and Issues Regarding Energy Intensity Savings from Manufacturing Productivity Improvements Measures”

Education - BSEE and MBA - University of Kansas/Lawrence and Masters degree, Industrial Engineering - University of California/Berkeley, Graduate of the General Electric Advanced Manufacturing Program
