## NEWS RELEASE—NEWS RELEASE

11/30/2011: Electronic Precision Specialties, Inc. ([www.elecprec.com](http://www.elecprec.com))

The California/EPA Department of Toxic Substances and Control (DTSC) has recognized Electronic Precision Specialties, Inc., a precision electroplating facility, with a presentation of the prestigious Metal Finishing Model Shop Award on November 30, 2011. This award is achieved through implementation of pollution prevention measures, including new technologies, and strict compliance with environmental regulation. E.P.S.I. is one of only 4 companies within the State of California to receive this recognition.

The City of Brea, which has been the location of E.P.S.I. since 1980, has also chosen to recognize the Company for its achievement of Model Shop status and its citizenship in voluntarily preventing pollution by facilitating a cleaner and safer shop.
