

Located in Vista, CA, IMS has been serving North County San Diego for over 5 years. We specialize in quick turn, prototype, new product introduction PCB assembly and box build. This is our core focus, to provide an atmosphere supporting the dynamic requirements associated with new design and product verification.

**Consider the following when choosing your electronics manufacturing partner:**

- Does the manufacture embrace all lot sizes, even an order for just one board, and appreciate the opportunity to provide manufacturing solutions for your company?
- Does the manufacture provide you with a viable alternative to doing quick turn prototype assemblies in-house whether turnkey or consignment?
- Is the manufacture trustworthy and dependable to build circuit board assemblies for you quickly at the highest quality level?

**Capabilities**
