

CITY OF MENIFEE

PROCLAMATION

NATIONAL MANUFACTURING DAY

WHEREAS, The Manufacturing Institute, an arm of the National Association of Manufacturers, has traditionally celebrated Manufacturing Day in October, and Menifee has participated in this event for four years; and

WHEREAS, the mission of Manufacturing Day is to showcase the potential of modern manufacturing, foster interest in manufacturing careers and improve the public perception of manufacturing careers; and

WHEREAS, Manufacturing Day displays the reality of modern manufacturing careers and addresses the skills gap that is leaving more than 2.4 million American jobs unfilled by 2028. This skills gap is in part due to a lack of awareness of the incredible career pathways in manufacturing; and

WHEREAS, the manufacturing sector provides jobs such as engineers, computer programmers, research managers, mechanics, machine operators, first-line supervisors, production workers, welders, and many other individuals;

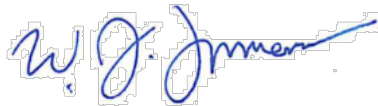

NOW, THEREFORE BE IT RESOLVED, that the City Council of Menifee declares October 1, 2021 as Manufacturing Day in Menifee to show appreciation and recognition to the manufacturing companies in our community that are vital to Menifee's economy.
