Quality Statement

AMTEC aims to exceed customer expectations in the service and products it provides. We are committed to continual improvement of our processes and personnel to achieve exceptional customer satisfaction and compliance with their quality requirements. We are also ISO 9001:2008 certified and compliant to ISO 13485:2003.

At AMTEC, we pride ourselves in developing solutions that work. This is most apparent when we are working with our customers on projects involving marking, engraving, printing, welding or a combination of operations. We are eager to work with you on developing a process that makes your company more competitive.
